### *Marketing Assistant*

Applications are invited for the above position. The successful applicant will report to the Business Development Manager and work with him in delivering marketing support for the products and services offered by Biobest and other laboratories within the group. This is an exciting opportunity for an individual with marketing and/or project administration experience to bring his or her skills and knowledge to bear in an enthusiastic manner to help Biobest maintain a continued record of company growth in its sector.

Your primary role will be to use your excellent IT and organisational skills to develop and update the content of our external communications and deliver these to our current and potential customers in an efficient and timely manner. With our varied customer base; animal owners, farmers, vets in practice, veterinary laboratories, pharmaceutical companies, contract research organisations, public sector bodies and commercial business, the range of project work will provide a diverse challenge to the successful applicant.

The position is available immediately. Salary will be in the region of £14,000 - £19,000 with the starting salary being dependant on qualifications and experience.

An application form and further details on this position are available from our website ([www.biobest.co.uk](http://www.biobest.co.uk)) or by contacting our office team on 0131 440 2628. Completed application forms and a copy of a current CV should be sent to the Business Development Manager, Mr Ian MacDougall, at the above address or by e-mail to [ian.macdougall@biobest.co.uk](mailto:ian.macdougall@biobest.co.uk). The closing date for this position is Wednesday 28<sup>th</sup> of January 2008.

#### **About Biobest**

Biobest was founded in 1995, and has become the principal private sector veterinary virology laboratory in the UK. We are compliant with Good Laboratory Practice (GLP). Our principal activities are laboratory studies in support of vaccine development, animal viral diagnosis and genetic testing, and laboratory support of cattle health schemes. We are located at modern facilities on the Edinburgh Technopole site which provides an ideal working environment with excellent scientific and support facilities.
